

AUTHORSHIP DECLARATION

The *AGER* Editorial Board reminds authors of manuscripts that their content must be original and unpublished. All authors of the article must be the same ones who contributed to its conception, realization and development, as well as to the obtaining of the data, interpreting the results, and drafting and revising the manuscript.

The first author signing the article or contact author must complete this form, following the instructions below.

If you need to consult any question related to this declaration, you can contact the *AGER* Scientific Secretariat through the following e-mail address: ager.journal@gmail.com

Title of the manuscript

Authors (in order of signature, separated by commas)

Authorship (both boxes must be checked)

All persons named as authors in this manuscript have participated in the planning, design, and performance of the research, and in the interpretation of the results. Likewise, all persons named as authors critically reviewed the manuscript, approved the final version and consent to its publication.

No person responsible for the manuscript and who meets the criteria for scientific authorship has been omitted.

Statement of originality and lack of prior publication (all boxes must be checked)

This manuscript is original and unpublished, and has not been nor will be submitted to another journal for consideration unless it is rejected.

None of the data presented in this manuscript have been plagiarized, fabricated, manipulated or falsified. All original data are distinguished clearly from previously published data.

The sources upon which information in the manuscript is based, and all theories and data from previously published sources, have been properly identified and cited.

The sources of all previously published figures, tables, data, photographs, etc. in the manuscript have been cited, and all necessary permissions to reproduce them in whatever medium have been provided.

Permission has been obtained from all persons who provided unpublished data.

Data collection and interpretation of the results (both boxes must be checked)

All authors of this manuscript have avoided errors in the experimental or theoretical design, presentation and interpretation of the results. If any such errors are detected in the manuscript before or after publication, the authors will immediately alert the Editor in Chief.

The results of this study have been interpreted objectively. Any result that contradicts the authors' point of view have been discussed in the manuscript.

Acknowledgements (both boxes must be checked)

All sources of funding provided for this study are acknowledged, with a concise mention of the funding organization and identification code.

All persons who contributed to the manuscript but who are not authors and who are not responsible for preparation of the manuscript are mentioned in the Acknowledgements.

Conflicts of interest (please check only if applicable)

In the Comments box below the authors provide information regarding any commercial, financial or personal relationships with people or institutions that might have an interest of any nature in the research reported in this manuscript.

Copyright transfer and dissemination (this box must be checked)

The publication of this manuscript implies the transfer of copyright to *AGER*, which reserves the right to distribute the published version of the article on the Internet under the terms of use and distribution of a [Creative Commons 4.0](#), license (Attribution, NonCommercial, NoDerivatives). Distribution of the article in this manner ensures that authors are in compliance with the Article 37.3 of the Spanish Act 14/2011, of 1 June, of the Science, Technology and Innovations regarding the requirement to provide [Open-Access](#) to research results obtained with funding from public research organizations.

Authorship of person(s) signing this manuscript (in order of signature)

Name	Surname
